Some Storekeepers

think the only way to increase profits is to increase gross sales. Some try to do it by cutting down running expenses.

We can show you a store system that will give you a greater profit this year on the same amount of business as you did last year. We can show you another system that will increase both your gross sales and percentage of profit. Call and see.

ASKS WHERE

(Continued from Page 1.)
for final action in the House today. His provisions are the same as those of the ordinance now being enforced in Honolulu by Sheriff Ikaika. Sheldon spoke in behalf of his bill, saying that it has Ikaika's approval.

Pail opposed the bill, stating that in the country districts it would work a hardship. Parents are often obliged, he said, to send their children a distance of several miles after dark, and if this bill becomes a law the children will be liable to be taken up by the police.

John Hughes also opposed the measure. He said Sheldon's intentions were good, but he hadn't incorporated his intentions in the bill.

"According to this bill," he said, "any child caught on the streets after dark is liable to be taken up by any irresponsible police officer—and we have a good many of them. And then the child is liable to a fine of \$5. Where is the child going to get it?"

"But the worst feature of the bill is the one which renders the child liable to imprisonment for ten days. Are we going to send the children down to be incarcerated in the jail along with thieves and murderers, simply because they have been caught on the street at night?"

Sheldon replied that there is no necessity for that, as there is a reformatory to which they can be sent.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day.

Indian district of Waima.
The Lands Committee, in reporting on the bill, stated that it found the intention of the introduction of a new bridge. The committee recommended that \$5000 be inserted in the appropriation bill for a new bridge.

There was immediate objection to this, and it was thought the report should be recommended to the committee. Mahoe objected strenuously to such action, but after considerable discussion the report of the committee was finally adopted.

The Lands Committee reported on House resolution 126, introduced by Kanioha, and recommended that \$5000 be inserted in the appropriation bill for locating and constructing a new Government road on that portion lately destroyed by the lava flow between Kona and Kau. Kanioha seems in a fair way to get that road after all.

The Lands Committee reported on House resolution 125, presented by Nalima, and recommended that \$7000 be inserted in the appropriation bill for the roads in the District of Puna.

Coney for the Health and Police Committee, reported on House Resolution 122, introduced by Kanioha, and informed the members that the President of the Board of Health with the doctors of his department would exhibit to the House certain experiments for the determination of the presence of the bacilli of leprosy in a person. The committee reported that it has already arranged for an examination to be made at Dr. McDonald's office, Young Hotel, between the hours of 10 and 11 this morning, and recommended that the House visit and see for themselves.

On account of the illness of Representative Kanioha, the introducer of the bill, the report was recommended to the committee. The Speaker announcing that the House would visit Dr. McDonald's office at 4 p. m., at which time Kanioha would be present.

The Health and Police Committee reported on the following bills:
Petition 19, introduced by Mahoe, praying that the salary of the doctor at Waima be raised from \$10 to \$50 per month. The committee recommended that the same be allowed and inserted in the appropriation bill.

House Bill 42, introduced by Sheldon, relative to allowing visitors to the leper settlement at any time under restrictions and to provide a visiting room to accommodate the same. The committee recommended that the same be tabled on the ground that the Board of Health had already made the provision intended by the bill.

DAVIS PETITIONS.
James H. Davis, presented the following petition to the Legislature this morning. To the Legislature of the Territory of Hawaii.

Honolulu, March 12, 1907.
Whereas, Mr. James H. Boyd, when Superintendent of Public Works, offered (December 26, 1901) in consideration of your surrendering all right, title and interest that you may have in and to the old trail running through the land at Maui, the government will agree to widen and keep in repair your road leading from the main wagon road to your residence.

And Whereas, this work has not been carried out, although approved by the Governor and succeeding Superintendent of Public Works.

Therefore, your petitioner respectfully prays your Honorable House to secure the required land from the Sherwood estate (either by exchange or purchase) and to appropriate money enough to do the work.

Respectfully submitted,
JAMES H. DAVIS,
Kealahou.

Reouli introduced a resolution providing \$50 to be inserted in the appropriation bill for the purpose of reimbursing Peter Kalua, Manuel Vining, Ahana, Kong Sing, Lam Sing, Hui, witnesses for the prosecution in the case of the Territory vs. Kalua Antonio, said defendant being charged with arson in 1905, moneys paid by them for transportation from Naalehu to Kailua and return. Referred to the Judiciary Committee after it passed first reading.

A bill which was apparently in W. C. Achi's handwriting came up in the House this morning and was referred to the Judiciary Committee.

It provides that a penalty of 10 per cent shall be added by the assessor to the amount of all delinquent personal and property taxes, which penalty shall be and become a part of such tax and shall be collected as part of such tax.

Any delinquent tax and penalty remaining unpaid one year after the date of delinquency shall bear interest from the date of expiration of said one year until paid, which interest shall be and become a part of such tax and shall be collected as part of such tax.

THIRD READINGS.
The following House bills passed third reading this morning:

House Bill 29, relating to the purchase of material and supplies by the respective counties in the Territory.

House Bill 56, relating to deputies high sheriff, appointment, powers and bond.

House Bill 61, relating to penalty of children found in public streets, after the hours of darkness.

House Bill 64, creating counties within the Territory and providing for the government thereof.

At the suggestion of the Speaker, Pail moved that the House adjourn until 2 p. m., so that the several members who wanted to go down to the Kinau before she sailed, might have the opportunity to do so.

India has a youthful sportsman with a long record of "kills" in the heir-apparent of the Sirgha state, a boy of 11 years. He began to use a gun when only 7 years of age and up to the present time has accounted for seven tigers, six panthers and two bears, not to mention other large and small game.
